

# A tag based filesystem

Catalina Macalet, Eugen Hristev, Mihai Dinu, Sorin Dumitru

Politehnic University of Bucharest

Nov 11, 2010

- Started work on the kernel module
  - Finished storage module
  - Keeps all information in memory(for now)

- Module for testing
  - Can create fake files
  - Add/Delete tags on them
  - Search by tag

- 5-12-2010 Finish kernel module with persistent storage
- 12-12-2010 Finish hook framework
- In parallel do userspace tools
