- ▶ Nepomuk
 - ▶ <http://nepomuk.semanticdesktop.org/xwiki/bin/view/Main1/Deliverables>
- ▶ Keywords: metadata, database

Current status

- ▶ Studied related work
- ▶ Stated expected behaviour
 - ▶ Picture or a couple of cmds output
- ▶ Identified pros and cons for the two possible solutions
 - ▶ maybe listing a couple of $+$ - for every solution, maybe we can make 2 slides out of this

Short term planning

1. Deciding at what level to implement TagFS
2. Identifying needed modules
3. Tasks breakdown per team member
4. Start coding
